

GRANITE

Palung Steel Grey

Natural character. Nepalese origin.

Palung Steel Grey

A light-grey palette with dark mineral accents and a naturally crystalline texture.

THE MATERIAL AT A GLANCE

Material	Natural granite
Colour character	Light grey with darker inclusions
Source	Kailash, Makwanpur, Nepal

Actual sample photograph. Colour and grain vary naturally; approve a physical sample and selected lot before purchase.

Rooted in Nepal

KAILASH GRANITE QUARRY

From the hills of Makwanpur

The operating quarry is located in Kailash Rural Municipality. Its granite blocks are the starting point for BigPlus Minerals' natural-stone business.

ORIGIN MATTERS

When enquiring, request current block photographs, lot identification and an inspection arrangement for your selected material.

Sized for your project

PALUNG STEEL GREY / PLANNED SLAB RANGE

STANDARD SLAB

1,000 × 2,500 mm

1 metre × 2.5 metres

20 mm thick

2.5 m² / 26.91 sq ft per slab

Own quarry. Greater size flexibility.

Our own Kailash Granite Quarry gives us flexibility to offer larger slabs for project requirements. Larger sizes are available on request, subject to suitable block selection and processing capability.

LARGER FORMATS

Tell us your required dimensions and quantity. Maximum size, thickness and delivery timing will be confirmed with your quotation.

SUPPLY STATUS

Granite blocks are the current product focus. Finished slabs are planned after commissioning of the Mahadevbesi processing facility.

Specify your requirement

A clear brief helps match the stone to your project. Share the following when requesting a quotation.

01 **Product & quantity**

Blocks, or interest in future processed formats; required volume.

02 **Dimensions**

Standard slabs: 1,000 × 2,500 × 20 mm. For larger sizes, specify your requirement.

03 **Selection**

Preferred colour consistency, sample approval and lot photographs.

04 **Processing needs**

For future products: thickness, finish, edge and cut requirements.

05 **Delivery**

Destination, required date, packing, loading and transport needs.

06 **Technical review**

Ask for applicable test reports and suitability for the intended use.

Confirm available finishes, dimensional tolerances, pricing, lead times and relevant test results in writing before ordering.

Let's talk stone.
